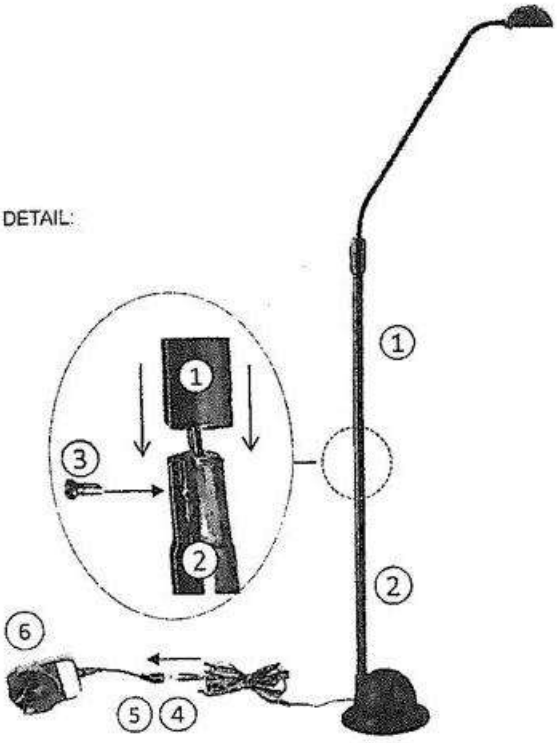
LED Floor Lamp
Model KD010F

DETAIL:



Assembly Instructions

a) Ensure the wall socket is switched off.
b) Unpack the lamp carefully and place it on a flat surface. Do not plug the lamp into the wall socket. Unfold and extend the arm of the lamp.
c) Connect the top section (1) to the bottom section (2) by aligning the tab with groove. Feed excess wire inside the rod then push section (1) into section (2).
d) Align holes on both rods and insert grab screw(3). Tight securely.
e) Connect DIN Jack connector plug (4) into DIN socket (5) of LED Driver (6).
f) Plug the LED Driver Power Plug (6) into the wall socket and turn the mains power ON.
g) You can operate the Floor Lamp by switching it ON/OFF using the switch (6) located on the pole.

Operation & Maintenance

- During use the light head may become moderately hot. It is recommended to exercise caution when touching light head assembly.
- Do not operate in a position where children or infirm persons can access the fitting.
- Do not operate in a position where flammable materials can come into contact with the lamp.
- Do not look directly at the LED light source
- . NOTE: The unit consumes negligible energy (<0.6W) when the light is switched OFF.

INDOOR USE ONLY
